***Enhance your Kitchen
with a Designer Stainless Steel Bench Drain***

THE DESIGNER

EURO RANGE...

KIMBERLEY PRODUCTS™ *Euro* Range series of Kitchen Bench Drains and Knife block is the perfect solution for Architects and Kitchen Designers alike.

KIMBERLEY PRODUCTS™ has developed the Kitchen Bench Drain and Knife Slot to complement the designer trends for clean lines and functionality in the kitchen.

The ever increasing use of under slung sinks has developed an issue of drainage, due to lack of space in compact kitchens or the location of dishwashers next to the sinks. Installing the stylish bench drain stops the issue of pooling water and eliminates the stained rings left on solid bench tops from glasses.

This combined with the knife slot, you can remove the typical knife block which clutters the work space and keep a sleek look to your designer kitchen. Both products are easily installed into new kitchens as well as into existing bench tops.

Call KIMBERLEY PRODUCTS™ on 03 9768 5777 or visit www.kimprod.com.au for more information.
